

The Israel Association of Valuators and Financial Actuaries (IAVFA) is a professional organization, an institution for professional training and a body which specializes in placing professional employees in the financial sector in Israel. IAVFA strives to voluntarily regulate the professions of valuation and financial actuarial science in Israel, both by setting pre-qualification requirements, ethical principles for practitioners in these professions, and by training and certifying quality professionals for these professions. IAVFA provides both placement services in order to integrate its credentialed members in leading positions within the Israeli labor market, and mediation services between valuation consumers and valuation specialists.
